Mega Grid

Grid is an immersive sports game that combines sports and interactive technology. It integrates interactive LED lights and sensors through innovative software design, creating a fun and exciting gaming experience.

Game Rules:

There are LED tiles with different color lights changing in the game area(red, blue, green).

1.Red: danger zone
2.Green: safety zone
3.Blue: scoring zone
4. While avoiding the red tiles, players need to step on the blue tiles to gainpoints.
